---

**Reference:** TP/2019/0151 CA

**Ward:** Clarence

**Received:** 07/04/2019

**Proposal:** Remove the Cypress tree nearest the front garden boundary brick wall as it is cracking the wall. This tree has been inspected by Bartlett Trees as is confirmed as being an inferior specimen which to repeat is cracking the adjacent wall. The removal of this tree is covered by a planning application for a driveway extension. But if the driveway application isn't approved the tree would still be wished to be removed.

**ST ALBANS DISTRICT COUNCIL TREE WORKS  
APPLICATIONS REGISTERED WEEK ENDING 11/04/2019**

**Reference:** TP/2019/0158 CA

**Ward:** Harpenden West

**Received:** 08/04/2019

**Proposal:** Details of works and identity of trees. Please note: none of the trees below have TPOs. . Cherry trees (T1, T2, T3, T4 and T5) - to the rear of the garden: we propose removing these trees as they interfere with the new garden design. . Escalonia (T6): we propose removing this tree as it is growing too close to the base of the existing old wall and could undermine the wall. It is also not in keeping with the new design. . Sambucus sp. (T7): we propose removing this tree as it is not in keeping with our proposed new planting scheme. . Prunus lusitanica (T8 & T9): these are growing as part of a 4m high hedge. We propose removing these and replacing with a new Prunus lauroceracus hedge to tie in the existing hedge. The removal of these 9 trees will be balanced by the planting of 18 new trees and hedging (see drawing 3054/R/NEWT/1). The new trees and hedge plants will use at least 5 different species which will attract and provide habitat for wildlife. We are also incorporating the remaining 26 established trees in the new design.
