

**ST ALBANS DISTRICT COUNCIL TREE WORKS  
APPLICATIONS REGISTERED WEEK ENDING 18/01/2018**

**Reference:** TP/2018/0002 TPO1077 **Ward:** St Peters

**Received:** 18/01/2018

**Proposal:** Cedar T34 (labelled T1) in rear garden - Fell to ground level.  
Reason: This tree has outgrown its location, risk of future limb loss during hot summers, risk of damage and danger to the property used as B&B and occupants, inability to cordon off due to central garden location. Permission has previously been granted for further buildings on the property which are now located beneath the tree and used as lodging. The tree does not have a high amenity value with limited public views and past reduction work has caused it to grow in an unnatural shape. Removal will also allow the adjacent Tulip to grow a more balanced crown. Further crown reduction would be required to retain tree and would further reduce its amenity value. Tree can be replaced with another such as a Ginkgo Biloba or other suggested species.

**Address:** 29 Upper Lattimore Road St Albans Hertfordshire AL1 3UA

**ST ALBANS DISTRICT COUNCIL TREE WORKS  
APPLICATIONS REGISTERED WEEK ENDING 18/01/2018**

**Reference:** TP/2018/0013 CA

**Ward:** Verulam

**Received:** 11/01/2018

**Proposal:** Horse Chestnut (T1 on plan) - Upper crown is sparse with leaf miner present causing early browning and loss of leaf. Two large limbs on the south west side of tree, one dead and the other showing signs of dieback. Large limb on south east side extending over the neighbouring garden has a significant dead 'stripe' running from the union all the way to the end. Pollard tree to a finished height of 10-12m. Horse Chestnut (T2 on plan) - Upper crown is sparse with leaf miner present and minor deadwood throughout. Reduce crown to a finished height of 14-16m and 2.5-3m radial spread to counter the effect of the neighbouring tree being pollarded. Lift lower branches above car port. Lime (T3 on plan) - Crown is heavily suppressed by neighbouring chestnut with growth dominant over garden and toward house. Lift crown over garden to a height of 4m.

**ST ALBANS DISTRICT COUNCIL TREE WORKS  
APPLICATIONS REGISTERED WEEK ENDING 18/01/2018**

**Reference:** TP/2018/0021 CA

**Ward:** St Peters

**Received:** 16/01/2018

**Proposal:** Mountain ash tree x 1. Removal. Garden very small and tree now 12-15m tall. It dominates the space in the garden, blocks all sunlight in winter and the berry shed during autumn / winter completely covers the garden. The lowest branches are too low to provide any privacy for neighbouring properties so there really is no amenity or privacy value.

**Address:** 1 Hopkins Yard Watsons Walk ST ALBANS AL1 1PD

**Reference:** TP/2018/0022 CA

**Ward:** Sopwell

**Received:** 16/01/2018

**Proposal:** Trees partially in Conservation Area. G2 - Line of approximately 150m of various species of trees including, sycamore, ash and alder to be cut back away from building to achieve 3m clearance. All branches overhanging roofs to be cut back. Works to trees outside Conservation Area: G1, 2x Alder, carry out crown reduction of 3m, ensuring all branches are away from the buildings and not overhanging them.
