Reference: TP/2019/0112 TPO 1683

Ward: St Stephens

Received: 14/03/2019

Proposal: Oak (T2 on Site Plan) - Crown reduce by 3m - 4m all around The tree works are proposed to stop the influence of the tree(s) on the soil below building foundation level and provide long term stability. Estimated costs of repair to the building are ?45,000.00 if the influence of the tree(s) remain and ?5,000.00 if the proposed tree works are allowed to proceed. Granting permission will limit these costs. In the event of a refusal we, or our clients, will seek to secure compensation for the additional costs incurred through Section 202(e). Should the tree/s remain the total cost of repairs will be the Superstructural repairs + Alternative method of repairs = ?50,000.00 It is the expert opinion of both the case engineer and arboriculturalist that on the balance of probabilities the supporting information demonstrates the influence of the tree(s). Note: Further monitoring results may be submitted if these become available during the course of this application.

**ST ALBANS DISTRICT COUNCIL TREE WORKS
APPLICATIONS REGISTERED WEEK ENDING 22/03/2019**

Reference: TP/2019/0120 CA **Ward:** Clarence

Received: 16/03/2019

Proposal: Remove multi-stemmed Thuja in the rear garden to increase light into the garden . Remove Sycamore at the rear of the garden as it is covered in Ivy, extends over the neighbour's outbuildings and cast too much shade in the gardens. Reducing the tree would result in the Ivy covering completely the reduced branches with limited scope for the tree to recover. Intention is to replace it with a Hornbeam which will be kept Ivy free. Remove two Damson trees & an Elderberry tree which are not prime examples so this part of the garden can be re-planned.

**ST ALBANS DISTRICT COUNCIL TREE WORKS
APPLICATIONS REGISTERED WEEK ENDING 22/03/2019**

Reference: TP/2019/0124 TPO1449

Ward: Harpenden South

Received: 19/03/2019

Proposal: G1 10 x Scots Pine - Some of the group of trees are beginning to encroach over the property and will soon be an issue. Branch failure has occurred to some (see attached picture). The height seems to be an issue with the house holder to . I would like to apply for reducing back the lateral growth towards the house by 1-2m and to reduce the height by the same to balance the crowns.
