To Whom it may concern

I wish to object against the revised Tarmac plans.

It's absolutely ludicrous the new access road is going to be even narrower than the existing one but proposing more cars to use it when it's currently full to capacity and peak times.

The current road is already used to access a very busy football club / school and soon to open a new children's play area.

The single lane road will mean that cars cannot pass so will reverse onto the already busy high street in front of the primary school.
